COVID-19 Response

To all valued clients of our drivers.

Although Health Canada maintains the public health risk associated with COVID-19 is low at the time of this notice, it is important to us to take all precautionary measures possible to help further prevent the risk of spread and exposure to the public. We have placed bottles of Spray Nine disinfectant in all vehicles. Drivers and vehicle owners will be required to wipe and disinfect all surfaces of vehicles that will be in contact with themselves and clients. Air Cab has confirmed Spray Nine is effective in eliminating COVID-19. More information is available here:

<https://www.spraynine.com/>

Until we have been instructed further by local municipalities, provincial, or federal governments, we want to ensure everyone knows that we continue to operate. While travel during this time may be limited, we understand there continues to be a need for certain essential travel. Air Cab is still here to help, and we plan to keep the public informed as the situation evolves.

If you have any inquiries or concerns, please contact us at info@aircab.ca.

You can also refer to the Government of New Brunswick website for more in depth detail on COVID-19.
